

## Product specification

## Lawn edging STRONG 58 mm

EAN Code:	00E4-72170_20231003170703
Length (cm):	100 (+/- 2%)
Height (cm):	5,8 (+/- 2%)
Width of base (cm):	7,4 (+/- 2%)
Material:	100 % recycling PP/PE
Weight of one meter/component	385 g
Minimum durability of material is	10 Jahre
Edging colour:	black/graphite
Pieces on a pallet:	1020 pieces (packed in packages with 12 pieces each)

Certificate

EuCertPlast

Number of pockets for anchors in this edging - 6 pieces. It is recommended to use 3 plastic anchors to form straight sections and to use 6 pegs for circles and curves.

It is made of 100% recyclable materials processed in our company (we are a holder of the EUROCERPLAST certificates, which confirm the origin of the consumer waste).

Lawn edging will be perfect for the determination of the boundary of: grass, bark, stone, low paving stone, surfaces hardened with paving grids etc. An important advantage of this edging is its quick and easy installation. Strong and durable catches allow you to model shapes starting from straight lines to the most complex shapes.
